

Senator Conrad to retire from the United States Senate

Missouri River Energy Services (MRES) is pleased to recognize Senator Kent Conrad (D-N.D.) for his years of service in the United States Senate and his strong support on many issues facing MRES and its members over the years.

Senator Conrad was first elected to the Senate in 1986 and is retiring at the end of this year. He has served as Chairman of the Senate Budget Committee since 2006, as well as served on numerous Senate committees and subcommittees.

Senator Conrad has been a strong supporter and champion of the Power Market Administrations and issues concerning tax-exempt financing, along with many other issues of concern to public power.

MRES and its members thank Senator Conrad for his support and wish him the best in his future endeavors.
